

Variations of stationary hotboxis, 12V DC

1. High pressure range

Basic type (without cover, without exhaust gas collector, without mounting elements (stand or telescope console))

Used materials for stainless steel type: heating coil + water leading parts made from V2a.

Valves and switches made from Ms

3. Further special variations of equipment

The following Product codes have to be added to the basic types mentioned in tables 1 + 2.

3.1 Combustion chambers with stainless steel heating coils material 1.4571 (V4a) upon request.

3.2 Inner and outer casings of the combustion chamber made from stainless steel.
